Meeting ID: 562 083 4248

Password: 691240

Course Instructor: [Elisa S. Shernoff, PhD; elisa.shernoff@rutgers.edu](#)

Office Hours: Tuesdays 11:45-12:45

Description: This course offers group guidance, supervision, and support for students at every stage in the dissertation process. In addition to an overview of the GSAPP dissertation process, the course will include didactic information on selected topics related to dissertations (i.e., prewriting strategies, scholarly writing, conducting a literature review, research design and methodology, writing research questions, APA style, IRB). Assignments are student-driven and dissertation specific. The course also includes weekly goal setting, discussion of progress in meeting goals, and troubleshooting barriers to meeting goals in a supportive environment.

Required Text

[American Psychological Association. \(2020\). Publication manual of the American Psychological Association \(7th ed.\).](#)

[The APA Manual Is Also Available through the Rutgers Bookstore](#)

Bring the APA publication manual to class weekly, there will be activities yoked to the manual. Selected articles and resources are also uploaded in Canvas.

Assignments and Evaluation

1. Attendance (12 points) and Participation (12 points)

Attendance and class participation are a major part of this class. You are expected to attend all classes each week. Only two excused/unexcused absences are permitted. Missing more than

two classes will result in a 5-point deduction for each additional day of absence from your final grade point.

This is an online class. Unless otherwise noted, we will meet synchronously each week from 3:35 pm to 6:05pm. Please join the [Zoom Room](#) on time, and be ready to contribute. This means being in a place where you can hear and can speak, and have your camera on. If this is a challenge, please reach out to me individually.

Students who log into zoom more than 10 minutes after the class has started are considered late and will be marked absent if they arrive more than 30 minutes after class has started. After three late arrivals, an unexcused absence will be marked in your record.

The only excused absences are those which are serious or required (e.g., personal medical emergencies or serious illness/injury; death or serious illness in the family; military duties; jury duty). They will require some form of documentation.

If you have not logged into zoom to attend the class, or are more than 30 minute late logging in, you will be considered absent. Please notify me before class if you are unable to attend class.

Participation is based on verbal contributions during class, staying engaged, and participating in individual consultations with the instructor. I will include other factors, including leaving zoom before the class ends, leaving zoom during non-breaks, or not being prepared.

Absence Due to Religious Observances: It is University policy to excuse, without penalty, students who are absent from class because of religious observance and to allow the make-up of work missed because of such absence. Required out-of-class activities shall ordinarily not be scheduled on those days when religiously observant students refrain from participating in secular activities. Absences for reasons of religious obligation shall not be counted for purposes of reporting.

Students are advised to provide timely notification to instructors about necessary absences for religious observances and are responsible for making up the work or exams according to an agreed-upon schedule.

2. Select Assignments and Due Dates (5 points) - Due No Later than Week 6 (2/22/24)

What do you want to accomplish on your dissertation this semester? What assignments are most useful to help you reach your goals? What is the timeline for completing assignments?

Review options for assignments in the [Possible Assignment Document](#) to help you identify realistic assignments that meet your goals and writing preferences.

Please insert your selected assignments and due dates no later than 2/22/24 at 3:35 pm using the [Dissertation Progress and Assignments Applied Excel file \(Assignment Selections Worksheet\)](#).

3. Submit Personalized Assignments (Ungraded)

Students will submit their personalized assignment to the instructor via email **at the start of class** based on the due dates they selected. I will provide written feedback on each assignment submitted. Requests for extensions must occur at least four days in advance of the due date via email, otherwise the late policy will apply.

Please practice using APA Style (7th Edition) for your personalized assignments. Please be particularly attentive to APA style guidelines related to point of view, word choice, bias, citations, quotations, and editorializing.

4. Tracking Dissertation Progress Weekly (36 points) – Weeks 2 through 13

Use the [Dissertation Progress and Assignments Applied Excel file](#) (See Module 1 in Canvas) to identify weekly goals for the course (Weeks 2-13) and to summarize progress in meeting those goals.

Progress in meeting goals will be completed at the start of class (3:35 pm) and new goals must be uploaded before the end of class (6:05 pm) to receive credit. No points will be assigned outside of those time parameters. Set challenging goals that are specific and measurable. Stretch yourself so you can get the most out of the course. We will use this document to communicate regarding your goals and progress in the course. [See Rubric Weekly Goal Setting](#) for additional information

5. APA Style Competency Exam (25 points) - Week 12 (4/11/24)

APA style is required in the social sciences and for production of a dissertation. There will be an in-class competency open book/open notes exam to demonstrate your competence with the Publication manual of the American Psychological Association (7th ed.). If you believe you have already met the competencies associated with APA style, please contact the instructor.

The exam will be uploaded in Canvas by 3:35pm on 4/11/2024 and must be emailed as an attachment to the instructor no later than 6:05 pm on 4/11/2024. If the exam is submitted later than that time/day, the late policy will apply (see page 4).

6. Complete CITI Training (10 Points) – By Week 15 (5/2/24)

Human subject research requires a submission to the IRB. Any “independent” idea or project requires a student to submit an IRB application with them as Principal Investigator (PI). This is true for experimental research, secondary data analysis, or any project where a student has

carved out a piece of a larger project. All IRB applications require students to show evidence that they completed [The Collaborative Institutional Training Initiative \(CITI\)](#).

[See Rubric CITI Training](#)

Please email the course instructor with a copy of your CITI training certificate no later than 5/2/24 at 6:05 pm. Any certificates received after that time/day will be considered late (late policy will apply, see below).

Grades and Grading Policy

****Late Policy:** Due dates specified for the assignments are firm. Any assignment that is not submitted after the due date/time specified will be considered one day late, and one day will be added for each additional 24 hours until the assignment is submitted. A grade reduction of 5% per day will be given for late assignments.

The final grade will be determined and computed based on the following:

1. Participation and Attendance	12
2. Attendance	12
3. Select Assignments and Due Dates	5
4. Tracking Dissertation Progress Weekly	36
5. APA Style Competency Exam	25
6. CITI Training	10

Maximum Point Total	100 points

INC	Incomplete	

Classroom Culture

Respect for Diversity and Commitment to Intersectionality: I would like to acknowledge that we are all individuals with multiple sociocultural identities that intersect and shape our worldview through the lens of privilege and oppression. As your instructor I am committed to minimizing systemic forces of oppression within the classroom such as ableism, classism, racism,

sexism, transphobia, and heterosexism in efforts to create a safe learning environment for all of us.

It is also my intent that students from all diverse backgrounds and perspectives be well-served by this course, that students' learning needs be addressed both in and out of class, and that the diversity that students bring to this class is viewed as a resource, strength, and benefit. Your suggestions are encouraged and appreciated, and I ask that you join me in this commitment to foster respect for one another, enhance solidarity, and build community.

Statement on Disabilities: Rutgers University welcomes students with disabilities into all University's educational programs. To receive consideration for reasonable accommodations, a student with a disability must contact the appropriate disability services office at the campus where you are officially enrolled, participate in an intake interview, and provide documentation <https://ods.rutgers.edu/students/documentation-guidelines>. If the documentation supports your request for reasonable accommodations, your campus's disability services office will provide you with a Letter of Accommodations to share with me. To begin, please complete the Registration form on the ODS web site <https://webapps.rutgers.edu/student-ods/forms/registration>

Names and Pronouns: Class rosters are provided with student's legal name. I will gladly honor your request to address you by an alternate name or gender pronoun. Please advise me of this preference early in the semester so that I may make appropriate changes to my records.

Person-First Language: Please refer to the APA Publication Manual (7th Edition, Section 5.4) for guidelines related to using person first or identify first language when writing and speaking about individuals with disabilities and/or special needs (<https://apastyle.apa.org/style-grammar-guidelines/bias-free-language/disability>)

Statement on Academic Integrity: The University's academic integrity policy, to which this class will adhere, can be reviewed

at: <https://academicintegrity.rutgers.edu/sites/default/files/pdfs/current.pdf>

All suspected infractions of academic integrity will be referred to the GSAPP Deans Office who will consult with the Rutgers Office of Student Conduct regarding disciplinary action.

Use of AI Tools: You are not allowed to use generative AI tools like ChatGPT for any work in this course, including both graded and ungraded work. Prohibited AI usage includes idea or text generation, writing or revising your work, development of media assets, or data analysis and presentation.
