E-mail: rk1081@gsapp.rutgers.edu

**Course time and location:**

Fridays 9:00am – 11:45am  
GSAPP Room A317

**Course Overview**

This course is designed to familiarize students with Dialectical Behavior Therapy (DBT), an evidence based psychosocial treatment initially developed for suicidal individuals with borderline personality disorder (BPD). Students will be taught the primary theories, principles, and strategies that inform DBT. Students will also become familiar with the latest research on DBT for BPD. Lecture, demonstration, multimedia applications, and group discussion will be used as the primary teaching methods. DBT is a complex treatment with multiple facets. It is therefore not expected that a student will have full competence to deliver the treatment as a result of just this one course. However, this course will provide sufficient background and serve as a necessary prerequisite before using DBT in an applied setting.

**Profession-Wide Competencies Addressed in the Course:** Intervention, Consultation, Individual and Cultural Diversity

**Required Readings**

1. Linehan, M.M. (1993). *Cognitive behavioral treatment of borderline personality disorder*. New York: Guilford Press.
2. Linehan, M.M. (2015). *DBT skills training manual* (2<sup>nd</sup> ed.). New York: Guilford Press.
  - a. Skills training handouts and worksheets available online with purchase of manual.

Other required readings, in the form of journal articles or book chapters, will be made available via Canvas course site.

**COURSE REQUIREMENTS**

- **Class Attendance and Participation** (25%)
- **Practice Assignments** (15%)

- **Group Presentation** (30%) (3/1 or 3/8)
- **Final Paper** (30%) (due 4/26)

### **Class Participation and Practice Assignments**

Active class participation is essential. It is critical that you come to class, on time, having completed all the reading and ready to actively participate. Your participation ensures that the class will be enriching to all of us and that you will successfully acquire knowledge of DBT. Participation includes in-class and outside-of-class assignments and exercises, including role-plays, as they relate to assessments, strategies, and techniques covered in the course material. It is important that you notify me when you anticipate being absent or as soon as possible after having missed a class.

### **Group Presentation**

As a class, you will break into four groups. Each group will be asked to provide a 45-60 minute presentation on one of the four DBT skills modules (mindfulness, interpersonal effectiveness, emotion regulation, distress tolerance) during the classes on 3/3 and 3/10. In this presentation, you should provide an overview of the module and teach specific skills to the class as a DBT skills trainer might teach to a group. Experiential exercises are required. Group assignments will be determined by early February.

### **Final Paper**

You have considerable latitude as to what the paper may consist of, but it must deepen your knowledge of the science and practice of DBT. An approximate length for the paper is 8-10 pages. The paper must reference *at least* eight empirical journal articles. The paper should be double spaced and written in APA 7<sup>th</sup> edition style. **Paper topics must be cleared with me by March 29<sup>th</sup>.** The following are just some examples of possible paper topics:

- A critical analysis of the empirical standing of DBT
- A comparison of DBT to one of three other treatments for BPD (schema-focused therapy, transference-focused therapy, mentalization based therapy)
- DBT case conceptualization of a particular client with BPD (or emotion dysregulation)
- A review of the literature supporting (or failing to support) the biosocial theory
- A review of the literature supporting skills training as a primary intervention

The paper is due via **email** by **4/26 at 5pm**. Please send it to me in Microsoft Word format and include your last name in document title. Late papers will have points deducted.

Occasionally, information and announcements will be sent to you via email. It is therefore imperative that you check your email at least once every other day.

#### **Class, Departmental, and University Policies:**

*Attendance. It is expected that each student attends every scheduled class. If you are unable to attend a class due to illness or will be late, please email me prior to class. Students are excused from class when observing religious holidays, in accordance with Rutgers University policy, however the instructor must be informed of the absence. An excused absence can also occur if the student is ill, and/or the student has been told to quarantine, and/or are experiencing symptoms of any transmittable disease. Please note as per University Policy students must register/report their absence from class Self Reporting Absence System <https://sims.rutgers.edu/ssra/> and students may be asked to verify their absences <https://studentsupport.rutgers.edu/services/absence-and-verification-notices> Students will be responsible for all material covered during their absence. As psychologists-in-training, it is expected students will schedule activities around their classes, clinical work, supervision and practicum. Please see student handbook: <https://gsapp.rutgers.edu/current-students/student-guidelines-employment-and> <https://gsapp.rutgers.edu/current-students/student-handbook-policies-and-procedures>*

*Unless otherwise noted all formal written work should use the Style Sheet of the American Psychological Association. See: <http://apastyle.apa.org/> (full access via Login to Rutgers University Libraries home page: <http://www.libraries.rutgers.edu/>)*

*Disabilities. Students with disabilities who qualify for reasonable accommodations may arrange for these through the Office of Disability Services, Kreeger Learning Center, 151 College Avenue; [dfoffice@rci.rutgers.edu](mailto:dfoffice@rci.rutgers.edu)*

*Academic Integrity. Work submitted for this course must be your own. You are responsible for knowing and conforming to all professional and university standards. See <http://academicintegrity.rutgers.edu/students.shtml>*
