

## Consumer Disclosure: Licensing Requirements and Compatibility with GSAPP School Psy.D. Curriculum

For more information on licensing requirements, including contact information for every state and territory licensing board, please see the Association of State Boards of Professional Psychology (ASBPP) webpage [\[https://www.asppb.net/page/psybook\]](https://www.asppb.net/page/psybook). All states require the completion of supervised predoctoral practicum hours and a predoctoral internship. These aspects are also required for the doctoral of psychology degree in clinical psychology at Rutgers University - GSAPP. In addition to education requirements for the doctoral degree, however, many jurisdictions require post-doctoral professional experience. These requirements are beyond the curricular requirements described below and occur after graduation.

Note that in some jurisdictions, in addition to being licensed as a psychologist, an individual can obtain prescribing privileges. Rutgers University-GSAPP's program does NOT fulfill requirements for licensure as prescribing psychologists in those states and jurisdictions that allow for it. Typically, additional coursework in pharmacology is needed in addition to the doctoral degree. Please see the ASBPP website for information about other U.S. territories and Canadian provinces.

Below, an asterisk (\*) indicates that earning a doctoral degree from a program accredited by the American Psychological Association (APA) satisfies educational requirements for licensure. Rutgers University – GSAPP is currently and has been continuously accredited by APA since 1977.

**\*\* American Territories:** American Samoa, Guam, US Virgin Islands and Puerto Rico--we are unable to determine if the program meets educational requirements. This means that if you plan to seek licensure in one of these areas, you may need to complete additional educational requirements in addition to those offered by Rutgers-GSAPP's School Psy.D. Program.

**\*\*\*** Licensing regulations change and it is the student's responsibility to check the jurisdiction in which they plan to practice throughout their training.
