DDDC School Closing Message:

As you are aware, the situation with COVID-19 is constantly changing. It seems prudent for the DDDC to plan for the likely possibility that we will have to close the center at some point and provide support to our students and families remotely. For this reason, only staff will report on Monday, March 23rd, the first day back from Spring Break. March 23rd will be a day during which all school program staff will gather and create materials for all students in an effort to support our families to provide structure in the event students must remain home for an extended period of time.

We hope to have more information over the course of our Spring Break next week which will help guide us about whether **students will return on Tuesday, March 24th**.

Thank you and stay safe.

DDDC Administration
