Tobacco Treatment Program

Health behavior decision making: Rumination, superstition, & stigma

Dissemination & implementation science

Co-Chief Fellow 2017-2018

Research Description: Stress, Coping, & Health. How people get stuck in their head (rumination), how that impacts their health (health behavior decision making), and how to get them out of that rut (stress management and health behavior [smoking] interventions). With a focus on cancer prevention, implementation science, and health equity.
