Rutgers School Psychology Program Doctoral Internship Guidelines
1. A School Psychology Internship is an organized training program that is designed
to provide the intern with a planned, programmed sequence of training
experiences. The internship consists of a range of activities including assessment,
evidence-based prevention/intervention, consultation, and program development
and evaluation, designed to meet the psychological, educational, and health needs
of clients.
2. The intern spends at least 25% of his or her time in providing direct (face to face)
psychological services to clients. The intern engages in research activity which
includes evaluating the outcome of services delivered and the effectiveness of the
intern’s own training.
3. The internship agency has a written statement, brochure, or website which
describes the goals and content of the internship program, and states clear
expectations for the quality of trainees’ work, training, and supervision. The
intern is given a written statement that includes, but is not limited to salary,
benefits, reimbursable travel, holidays, and other relevant data.
4. Due process procedures for interns are made available to interns prior to the
beginning of the training period.
5. Full-time internships are completed in no less than 10 months; part-time
internships may extend no more than 24 months. The internship year includes a
minimum of 1500 hours in activities described above. Interns who are working
toward licensure in New Jersey should complete 1750 hours.
6. The internship agency and the Rutgers School Psychology Program jointly issue
to the intern written documentation reflecting successful completion of the
psychology doctoral internship.
7. The internship agency employs a clearly designated doctoral level psychologist,
who is currently licensed/certified and is responsible for the integrity and quality
of the internship experience.
8. The full-time internship includes at least two hours per week of regularly
scheduled individual supervision, dealing with the psychological services
rendered by the intern, by a doctoral level psychologist licensed for practice at the
independent level in the state in which the psychological services are rendered.
9. In addition to individual supervision, the intern spends at least two additional
hours per week in scheduled group or individual supervision provided by a
doctoral level psychologist. This condition may be met through intern participation in the Rutgers School Psychology Internship Seminar.

10. The intern has regularly scheduled, supervised training activities with other psychology doctoral interns such as professional development/inservice training; case conferences involving a case in which the intern is actively involved; seminars dealing with professional issues; or observing delivery of mental health, educational, and/or health services. This condition may be met through intern participation in the Rutgers School Psychology Internship Seminar.

11. Reports by the intern for consumers, other agency or school personnel, or other relevant publics are co-signed by the licensed/certified psychologist supervisor for the intern.

12. The intern must have a title such as “intern” or other designation of trainee status.

13. The internship supervisor must, at a minimum, provide a written evaluation of the intern’s performance consistent with the training objectives of the Rutgers School Psychology Program at the end of each semester, using the Rutgers School Psychology Program Internship Progress Report form.

14. The intern must submit a log and summary of internship activities at the end of each semester to the School Psychology Program Practicum/Internship Coordinator using the Rutgers School Psychology Program Doctoral Internship Activities Summary and Log.
