#### *Rutgers School Psychology Doctoral Internship Guidelines*

1. A School Psychology Internship is an organized training program that is designed to provide the intern with a planned, programmed sequence of training experiences. The internship consists of a range of activities including assessment, evidence-based prevention/intervention, consultation, and program development and evaluation, designed to meet the psychological, educational, and health needs of clients.
2. The intern spends at least 25% of his or her time in providing direct (face to face) psychological services to clients. The intern engages in research activity which includes evaluating the outcome of services delivered and the effectiveness of the intern's own training.
3. The internship agency has a written statement, brochure, or website which describes the goals and content of the internship program, and states clear expectations for the quality of trainees' work, training, and supervision. The intern is given a written statement that includes, but is not limited to salary, benefits, reimbursable travel, holidays, and other relevant data.
4. Due process procedures for interns are made available to interns prior to the beginning of the training period.
5. Full-time internships are completed in no less than 10 months. The internship year includes a minimum of 1500 hours in activities described above.
6. The internship agency issues to the intern written documentation reflecting successful completion of the psychology doctoral internship.
7. The internship agency employs a clearly designated doctoral level psychologist, who is currently licensed/certified and is responsible for the integrity and quality of the internship experience.
8. The full-time internship includes at least two hours per week of regularly scheduled individual supervision, dealing with the psychological services rendered by the intern, by a doctoral level psychologist licensed for practice at the independent level in the state in which the psychological services are rendered.
9. In addition to individual supervision, the intern spends at least two additional hours per week in scheduled group or individual supervision provided by a doctoral level

psychologist. This condition may be met through intern participation in the Rutgers School Psychology Internship Seminar.

10. The intern has regularly scheduled, supervised training activities with other psychology doctoral interns such as professional development/in-service training; case conferences involving a case in which the intern is actively involved; seminars dealing with professional issues; or observing delivery of mental health, educational, and/or health services. This condition may be met through intern participation in the Rutgers School Psychology Internship Seminar.
11. Reports by the intern for consumers, other agency or school personnel, or other relevant publics are co-signed by the licensed/certified psychologist supervisor for the intern.
12. The intern must have the title “psychology intern” as the designation of their trainee status.
13. The internship supervisor must, at a minimum, provide a written evaluation of the intern’s performance consistent with the training objectives of the Rutgers School Psychology Internship Consortium at the end of each semester, using the Rutgers School Psychology Internship Progress Report form.
14. The intern must submit a log and summary of internship activities at the end of each semester to the Rutgers School Psychology Internship Consortium Director using the Rutgers School Psychology Doctoral Internship Activities Summary and Log.
